

SILVER MONEY NOT TAKEN

Some of the very few single standard gold men in Nevada have been contending that silver coins of the United States are token money redeemable in gold upon presentation at the United States Treasury. They argue that the Government maintains the parity of silver and gold by promising to redeem silver in gold. As this idea prevails outside the State of Nevada A. W. C. Weeks of Waverlet, Iowa, addressed a letter to the Secretary of the Treasury at Washington in which he asked the Secretary to state:

"1-The statute, if any, which requires the Government to redeem silver dollars with gold.

"2-To state whether it is now or has ever been the practice to make such redemption."

In the absence of Secretary Carlisle, Acting Secretary Curtis replied to Mr. Weeks:

"That there is no law or regulation of the Treasury Department which provides for the redemption of silver dollars or silver certificates in gold. Silver certificates are, according to their terms, redeemable in silver dollars only, while the latter being standard coins of the United States, are not redeemable in any other form of money. It has never been the practice of the Government to redeem silver dollars or silver certificates in gold. Both silver dollars and silver certificates are received by the Government, the same as gold, in payment of all debts due the United States."

The trouble with the Government is that it does not adhere to the practice it has established regarding silver certificates in redeeming greenbacks and the Treasury notes of 1890. These notes state on their face that they are redeemable in coin. A standard dollar is coin just as much as a gold dollar, but the Government invariably redeems the Treasury notes in gold unless the holder of the note insists on having silver. The Government receives the silver dollars in payment of all debts due the United States, but pays its own debts invariably in gold unless the creditor insists on having silver. It repudiates its own money in canceling obligations preferring to issue interest-bearing bonds to get gold rather than pay out its own coins—legal tender money—which it receives for all debts due the United States.

The fact that silver remains in circulation under such circumstances furnishes the best proof that the masses of the people prefer it to any other money for ordinary business transactions. If the Government desired to accumulate all the silver dollars in circulation, in the Treasury vaults, it could not devise a more effective method of doing so than that which it has adopted. It receives them for all debts and pays none of its obligations with them except upon special request.

VIEWS OF A MICHIGAN CONGRESSMAN.

Congressman Aitken of Michigan is visiting San Francisco. In an interview with the *Chronicle* he is reported as saying that he is not in favor of any tariff legislation at the ensuing session of Congress and he thinks the majority of the Republicans in the East hold the same view. He thinks a change in the tariff laws would disturb the business industries of the country, and a Republican tariff, if adopted would meet with a certain veto.

Mr. Aitken is a silver man and believes in independent action by the United States. He thinks there will be considerable legislation on the financial question when Congress convenes, but he does not believe there will be any legislation that will tend to retire the greenback from circulation.

It appears that the Eastern idea of repudiating "tariff tinkering" prevails as far west as Michigan. In New York and New Jersey both parties declare against it. Had they done so before the passage of the McKinley bill, which increased duties above what they were in war times, there would be no occasion for those engaged in wool growing and sugar making to complain, but to stop now when wool, hides and sugar are on the free list and the Eastern manufacturers are protected does not look like fair play.

SELECTING A PRESIDENT.

The Chicago *Record* contains a cartoon representing Mr. Platt, General Manager of New York State, and Mr. Quay, Superintendent of Pennsylvania, in confidential conversation. A citizen asks: "Who are these mysterious men?" and another citizen gives him the desired information. Then the first citizen asks what they are doing? and the second says: "Sh-h-h! They are selecting a President for the people of the United States."

There is much, in fact too much, truth in what the *Record* says. The greatest States in the Union are controlled by bosses who select candidates not only for State offices, but for President of the United States. Conventions are called and with a great flourish of trumpets ratify the choice of the bosses, and the people signify their approval by firing guns, making bonfires and shouting themselves hoarse.

DISCREDITS ITS OWN COIN.

The Augusta, Georgia, *Chronicle* says: "When this government issues a silver dollar and declares it a legal tender

in payment of all obligations, it is not taking advantage of anybody. It pays out what it is ready to receive back again on the same basis. But when this government adopts the policy of receiving its silver money in payment of any obligation to the government, but refuses to pay it out in satisfaction of obligations by the government, then it discredits its own coin and is itself the worst enemy of its own money."

THE DURRANT TRIAL.

An Unexpected Sensation—Trying to Impeach Witnesses.

SAN FRANCISCO, October 1.—An unexpected sensation developed when the trial of Theodore Durrant was resumed this morning. Before the proceedings were begun Judge Murphy said that he had been informed last Friday that one of the jurors had been approached on the subject of the trial during recess of the court. After commenting on the gravity of the offense, which he said bordered on a serious crime, the Court asked Juror J. G. Truman to take the stand. Mr. Truman said while he was riding in a street car last Thursday he was approached by H. J. McCoy, General Secretary of the Young Men's Christian Union. In speaking of the trial McCoy said to the juror, "If you don't hang Durrant we will hang you." The statement of the juror created a sensation in the court, not only on account of the objectionable remark itself, but on account of the local prominence of the offender. Mr. Truman said McCoy's remark had no effect on his mind whatever and that he was confident there was no intent to influence him. The Judge said the prominence of the offender made the offense more remarkable and he ordered McCoy to appear in court next Wednesday and show cause why he should not be punished for contempt.

Robert W. Martland, a gas fitter, whose examination was begun last Thursday, was called to the stand to continue his description of the sunburners in Emmanuel Church. His testimony was of a technical nature, intended to show the likelihood of the escape of gas under certain conditions. Marvin Curtis, William P. Cathcart, P. J. Newman and Leonard Everett, members of the National Guard and Signal Corps to which Durrant belonged, were next called. They testified that at the request of the defense they had attempted to pawn a number of articles of jewelry at Oppenheim's shop, and they described the manner in which they were dressed at the time.

When Oppenheim was on the stand for the prosecution he was shown the articles and described the person who attempted to pawn them. The description given by Oppenheim in many instances did not correspond with the witnesses. Each of the four witnesses said he had subscribed money to assist in the defense of Durrant. Patrick D. Connolly, a saloon keeper, related a conversation with W. J. Phillips relative to Durrant's alleged visit to Pawnbroker Oppenheim's shop. An attempt was next made to show the bad reputation of David Clark, who assisted Attorney Quinlan to fix the date upon which he saw Durrant and Blanche Lamont going to Emmanuel Church. John Patten, Patrick Mulvaney and M. L. Murphy said that Clark's reputation for truth and integrity was bad.

AMERICAN BORN CHINESE.

Are They Citizens of the United States?

SAN FRANCISCO, October 1.—Von Kim Ark came here recently from China demanding a landing on the ground that he is a native of California. The Collector of the Port, while admitting his nativity, refused him a landing, claiming that he is not an American citizen. This decision is in accordance with an arrangement already made with the Attorney-General, who is anxious to test the right of a native born Chinese to land here.

According to the contention of the Government, a person born in the United States must not be, at the time of his birth, subject to any foreign power, thus making it indispensable to citizenship, by birth, that the father be then an American citizen, for if the father be an alien the child will be subject to the father's country. In other words, to be an American by birth one must be born in America and of American parents. If this contention of the Government is upheld the standing of all people born in the United States of alien parents will be greatly affected. If the decision in the local courts is not favorable to the Government, the case will be taken to the United States Supreme Court.

CLOSING SALOONS.

It Demoralizes a Kansas Town.

KANSAS CITY, October 1.—The Mayor of Augustine, a suburb of this city, has issued orders to discharge every policeman and police officer, except the City Marshal, to close down the fire department and arrange to sell the horses and equipments and to close down the water supply, and that electric light service be stopped within the next ten days. The city is now practically at the mercy of fire and outlaws. Several insurance agents have been there all day busily engaged in canceling insurance policies. All this is the result of closing down 30 liquor joints, according to recent orders of Governor Morrill. They were closed this morning and when their aggregate revenue of \$750 per month was stopped it left no way of maintaining the various departments of the government, hence the action of Mayor Willard.

Saved by His Mother.

WASHINGTON, October 1.—The President has commuted to imprisonment for life the death sentence imposed upon Clyde Mattox of Kansas. This is the case in which the prisoner's mother, after appealing personally to the President, secured a letter assuring her that the death sentence would not be carried out. Mattox was convicted of killing an old colored man, John Muller, who was seeking to protect two colored girls. The President's reason for the commutation of the sentence was that certain testimony favorable to the accused had been excluded at the trial. A strong minority of the Supreme Court held that this evidence should have been admitted.

Failure of the Peary Expedition.

NEW YORK, October 1.—Lieutenant Peary's servant, Matt Henderson, and Prof. L. L. Dyche of the Kansas State University, arrived from the Arctic regions this morning on the steamship Sylvia. Lieutenant Peary and the other members of his party, who left Halifax yesterday by rail, are expected to arrive in New York this evening. Prof. Dyche, while reticent on the details of the expedition, admitted that it was a failure. He declared that Lieutenant Peary had not managed to forge much farther north than on his previous expedition. He would not give any reason for the failure other than a lack of food.

Two Officers Killed.

PINE BLUFF, Ark., October 1.—Deputy Sheriff Harris and Stiff of Arkansas county were shot near England, Lonoke county, yesterday while attempting to arrest a prisoner named Laeri, who escaped from the Arkansas county jail. He was located in a deserted house three and a half miles from England, and when called upon to surrender opened fire. The first shot struck and instantly killed Harris. The second mortally wounded Stiff.

Another report states the crime was committed by two escaped criminals named Owens and Nichols. The murderer escaped to the woods.

Two County Banks Closed.

JERESON CITY, Mo., October 1.—The Bank of Monett and the Bank of Perry, Barry county institutions, have been closed by the return of State Lease upon a notification by the State Bank Examiner of their insolvent condition, and they are in the hands of receivers. This makes thirteen banks closed by the Secretary of State since the execution of the new bank examination law began on the first of July, besides half a dozen that anticipated the examination by making assignments.

DEATH OF TECUMSEH.
POINTS ON A QUESTION THAT HAS LONG BEEN IN DISPUTE.

THE CHIEF of an Old Indian Warrior, Tecumseh, who died in this city July 23, 1895. It contains information regarding the question that has heretofore been widely disputed. The death of Mr. Conner prevented the fulfillment of the wish, says the Indianapolis News: "My father's family was captured by the Indians about the year 1783. It may have been earlier or a year or two later. They were carried to Michigan, and afterward ransomed by some Moravian, and the family settled about five or six miles below the present site of Mount Clemens, on the Clinton river, 23 miles north of the city of Detroit. When captured, the family lived at a place called Conner's Town, or Conner's Station, near what is now the east line of Coshocton county, O., adjoining Pennsylvania. The long journey through the wilderness then covering the distance from eastern Ohio to the Clinton river in Michigan was most painful and fatiguing.

"My father settled on White river in central Indiana in 1802, but he had made a trip to the Wabash in 1800. He remained at his trading post until the breaking out of the war with Great Britain in 1812, when he joined the forces under General Harrison at Fort Meigs, on the Maumee river, and with his brother John acted as guide and interpreter for General Harrison. He was sent by the general down the Wabash to the Miami, Rivard, and Shawnee, to learn if possible their intentions and attitude in the approaching trouble with British forces. He knew Tecumseh and his brother, the Prophet, intimately. The Prophet often befriended him, and was a trustworthy friend. My father always spoke well of these Indians. He had many conversations with Tecumseh in regard to the attitude of the Indian tribes under his direction and his reasons for his adherence to the British cause, and his cooperation with that country in the war that followed. Tecumseh complained bitterly of the lack of faith on the part of the United States in regard to performance of treaty stipulations and contrasted it with the policy as carried out by Great Britain in its management of Indian affairs in Canada. He felt that there was no security for the Indian and clearly foresaw that the time was not distant when the Indian would possess little or no part of the domain he had inherited from his fathers.

"Tecumseh seemed to be fully aware that step by step the tribes would be pushed farther west or exterminated by the bitterness and hate of the white man. With a power, warlike and aggressive as Great Britain to back and ally the Indian, he hoped to put off the final day and possibly save a remnant of his people.

"These, in part at least, were the reasons that actuated him in that wonderful crusade he was making, visiting the tribes covering the country from the Lake to Arkansas. My father said he had a persuasive tongue and a power to move his fellow savages, rare indeed, and he never failed to rally the red man on to the war path. His nature was not naturally a savage one, and he often expressed abhorrence of unnecessary bloodshed.

"He declared that he would not tolerate cruelties or predatory warfare on peaceful, unwarlike settlements of white people, but he felt it his duty to rally the tribes and inflame them to a point of resistance and war with the government of the United States, which had for a hundred years persistently pushed the Indians from their homes and the places which the government had assigned to them with solemn pledges that they should always remain such as their future homes, and that it would protect them from the restless greed of white people.

"My father was in command of 300 friendly Indians at the battle of the Thames, in Canada. He was wounded and attached to Colonel Paul's regiment in that battle. His Indians did some good service and contributed to the defeat of the British and Indians.

"After the battle, late in the afternoon, he was summoned to the headquarters of Colonel R. M. Johnson, who stated to him that it was the wish of the great chief Tecumseh to be among the slain in battle and requested my father to take some of his friendly Indians and search the field and ascertain if it were indeed true. My father immediately took with him four or five Delaware and began the search, which was successful. When they found the body, some of the Indians were not sure that it was that of Tecumseh. There was a striking resemblance between the two brothers, Tecumseh and the Prophet, but one of them had a spot or defect on one of his eyes. One of the Delaware stooped down and pushed open the eyelid, and it was at once known that the dead man was indeed Tecumseh.

"During the political campaign of 1840 it was universally asserted by the Democrats that 'Colonel Johnson killed Tecumseh.' My father often declared that it could not be true; that an old Indian warrior and a camp follower of the expedition in Canada, named Whittier, was probably Tecumseh's slayer. He was a better Indian hater and a crank on that subject. He was not even a soldier, but went to the battle on his own account. He too, was killed in the fight. Tecumseh was shot through the breast, and the wound plainly showed that he came to his death from the effects of a shot from a small bore rifle, such as the frontiersmen usually carried.

HAY SALT.
FINE GROUND SALT FOR HAY.
To salt hay properly, put up five bags, when partly cured, and use five pounds of salt per ton of hay. The moisture in the hay will then dissolve the salt into a brine which in turn will cure and preserve the hay and add to its weight. Animals will eat it with relish and consume all that is eatable. All will be benefited. An ordinary animal will eat about one-half ton of hay per month, so that if hay is salted with five pounds of salt and dissolved and taken up by the hay as it should be, each animal will get one and one-half pounds of salt per month, and that is enough. The animals will be healthier and you will make better beef and better mutton. The merchants of Reno will furnish the salt to consumers and I will sell to consumers at 45 cents per ton at the S. P. Depot. The salt will cost the farmers 4 cents per ton of hay. The merchants and farmers will all make money as all do who buy from me.

My Eagle Salt is 1.35 percent purer than Highland brand. So certified by J. W. Warner, Chemist of the University of Nevada. 1424
